- +90 551 210 42 11
- Istanbul, Turkey
- / Selectra
- / arda-güner

### Skills

- Programming Languages**  
C++, C#, Python, JavaScript
- Web Technologies:**  
HTML, CSS, React.js, Node.js, TypeScript
- Mobile Technologies:**  
Flutter
- Database Management:**  
MySQL, SQL, MongoDB
- Operating Systems:**  
Linux, MacOS, Windows
- Version control with Git and GitHub**
- Algorithm design and problem-solving**
- Performance optimization and code cleanliness**

### Languages

- Turkish (Native)
- English (Advanced)

### References

- Özge Esen Toprak (HR)
- Ekrem Şeneş (DNY Bilişim)
- Mehmet Yeşiltepe (TAC A.Ş.)

## About me

As a software engineer passionate about developing innovative and efficient software solutions, I strive to contribute to creative projects through teamwork and generate value.

## Experience

### TAC A.Ş.

**Software Development Specialist** (2023 Sep - 2025 Jan)

- Developed React and JavaScript-based dynamic web components optimizing Goldenhorn visualization features.
- Designed scalable solutions for API integrations.
- Transformed legacy codes into modular and reusable components.
- Reduced production errors by establishing automated testing processes.

### Fit Bilişim Bilgisayar ve Danışmanlık

**Intern** (2023 Jun - 2023 Aug)

- Developed and implemented solutions to increase network efficiency.

### DNY

**Technical Support Specialist** (2019-2021)

- Provided technical support to clients, enhancing customer satisfaction.

## Education

### Altınbaş University

**Software Engineering**

2018-2023

### Rami Anatolian High School

2014-2018

## Projects

- EVA TEAM Autonomous Vehicle Project – Image Processing**
  - Developed image processing algorithms for autonomous vehicle navigation.
  - Integrated PID control system for improved accuracy.
- EVA Submarine Team**
  - Underwater drone developed with autonomous navigation technologies.
- Unichain Blockchain Monitoring**
  - System for tracking blockchain transactions.
- Wordeko Word Game**
  - A word-guessing game.
- Protocol Racing Game**
  - Arcade-style racing game based on speed and strategy.
- Word Guessing Game**
  - Web-based word-guessing game.
- Cat-Mouse Mini Game**
  - A movement-based fun game.

## Certifications

**MathWorks: Matlab Onramp, Simulink Onramp**

**Udemy: Advanced Programming and Data Science Courses**
